

East Bay Municipal Utility District

Lower Mokelumne River Relicensing Project

FERC Project No. 2916

East Bay Municipal Utility District (EBMUD) operates hydropower facilities at Pardee and Camanche Dams under a 50-year license issued by the Federal Energy Regulatory Commission (FERC). In addition to permitting hydropower generation, the FERC license (Project No. 2916) requires adherence to operational regulations and terms related to public safety, recreation, and environmental protection.

The current license, which took effect April 1, 1981, is set to expire on March 31, 2031. EBMUD seeks the renewal of its license to continue operating the hydropower facilities and has begun the planning for this relicensing process through early engagement activities.

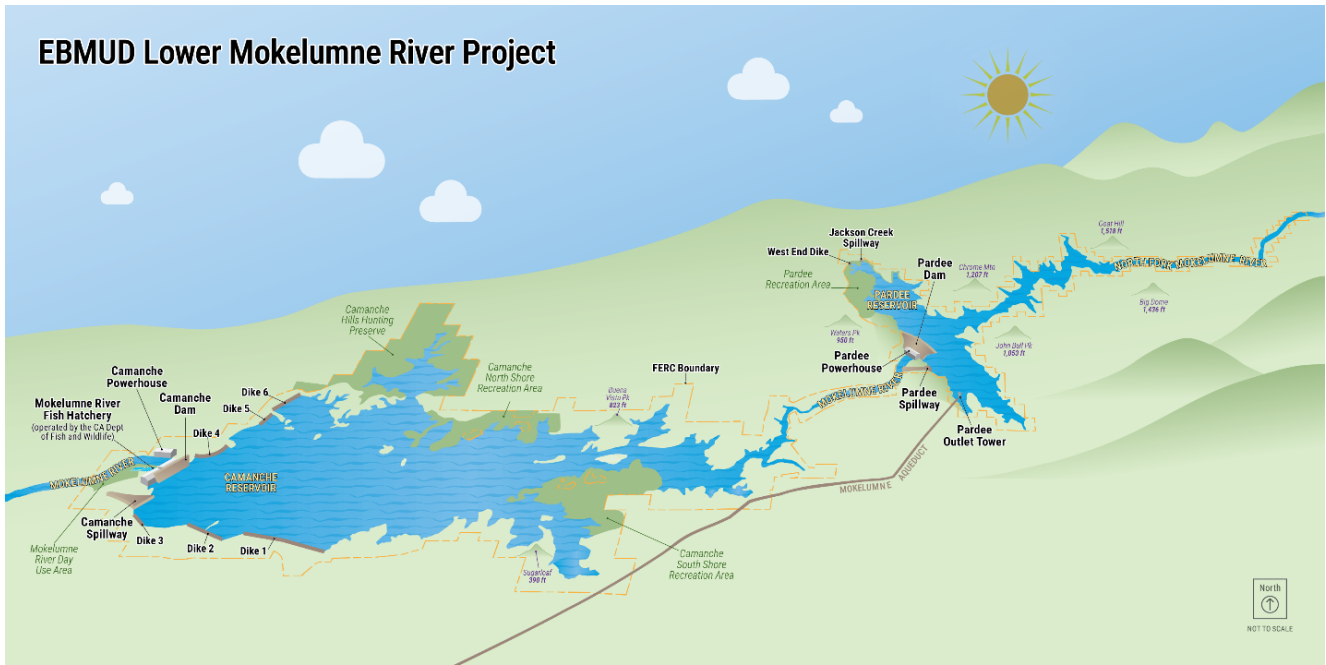

This relicensing process aims to continue to balance EBMUD existing water supply commitments and environmental benefits with hydropower project operations. The Lower Mokelumne River Project serves many needs, such as supplying water to the East Bay, flood control, the protection of fish and wildlife resources, recreation, power generation, and protection of cultural resources. As part of the relicensing process, EBMUD will comply with several environmental and regulatory requirements (e.g., National Environmental Policy Act (NEPA), California Environmental Quality Act (CEQA), and Clean Water Act section 401 Water Quality Certification).

At the conclusion of the relicensing process and upon approval, FERC will issue a new license with conditions that continue to balance the needs of water supply, flood control, power generation, and protection of the environment and cultural resources.

We would like to hear from you in regard to this process; please take a few minutes to complete our brief questionnaire below.

Please visit our website at <https://www.ebmud.com/mokrelicense>, or contact MokRelicense@ebmud.com or [\(510\) 287-0141](tel:5102870141) with any questions about the Project.

EBMUD Lower Mokelumne River Project

Lower Mokelumne River Project, FERC No. 2916

1. Contact Information for person completing the questionnaire:

Name & Title: _____
 Organization: _____
 Address: _____

 Phone: _____
 Email: _____

2. Are you or your organization planning to participate in this relicensing process?

Yes No

3. Do you know of any available materials or information related to either the existing Project or the Project's environment?

Yes *(If yes, please complete 2a thru 2e.)* No *(If no, please skip to 3.)*

2(a) Please indicate the specific resource area(s) for which you have information:

<input type="checkbox"/>	a) Geology and soils	<input type="checkbox"/>	g) Recreation and land use
<input type="checkbox"/>	b) Water resources	<input type="checkbox"/>	h) Aesthetic resources
<input type="checkbox"/>	c) Fish and aquatic resources	<input type="checkbox"/>	i) Cultural resources
<input type="checkbox"/>	d) Wildlife and botanical resources	<input type="checkbox"/>	j) Socioeconomic and/or Environmental Justice resources
<input type="checkbox"/>	e) Wetlands, riparian, and littoral habitat	<input type="checkbox"/>	k) Tribal resources
<input type="checkbox"/>	f) Rare, threatened & endangered species		

2(b) **Please briefly describe the information or list citations of available documents:**
(Additional information may be provided on a separate page.)

2(c) **Where and how can EBMUD obtain this information?**

2(d) **Please provide the names of other persons in your organization with whom EBMUD could potentially follow-up for information on the resource area(s) checked above. If you know of others outside your organization and who may have relevant information, please provide their name(s) and contact information as well. *(Additional contacts may be provided on a separate page.)***

Representative Contact Information

Name & Title: _____
Address: _____
